Projects

SIP Calculator using React & Chart.Js
This application makes use of Chart.Js library for better understanding of how much return user can expect over invested amount.

Converting excel to legible Questionnaire app using React & XLSX library
Built a mobile application which shows excelsheet data in more readable manner making it easier for the user to read it.

Job Portal using MERN Stack
This application lets user perform the CRUD operations from creation, updation and deletion of job profiles.

Hangman Game using React
It's a guessing game where players are required to guess the correct programming language or they lose.

Education

Yeshwantrao Chavan College of Engineering, Nagpur, 2016-2020
Bachelor's Degree in Computer Technology Engineering, GPA 7.18/10
